**TERMINAL DISCLAIMER**

The owner, Konica Minolta Holdings, Inc., of 100 percent interest in the instant application hereby disclaims, except as provided below, the terminal part of the statutory term of any patent granted on the instant application which would extend beyond the expiration date of either: (a) the full statutory term of any patent granted on pending reference Application Number 10/957,899 filed on October 4, 2004, or (b) the full statutory term of any patent granted on pending reference Application Number 10/460,908 filed on June 13, 2003, as such term is defined in 35 U.S.C. 154 and 173, and as the term of any patent(s) granted on said reference applications may be shortened by any terminal

disclaimer filed prior to the grant of any patent(s) on the pending reference applications. The owner hereby agrees that any patent so granted on the instant application shall be enforceable only for and during such period that it and any patent(s) granted on the reference applications are commonly owned. This agreement runs with any patent granted on the instant application and is binding upon the grantee, its successors or assigns.

In making the above disclaimer, the owner does not disclaim the terminal part of any patent granted on the instant application that would extend to the expiration date of the full statutory term as defined in 35 U.S.C. 154 and 173 of any patent(s) granted on said reference applications, "as the term of any patent granted on said reference application may be shortened by any terminal disclaimer filed prior to the grant of any patent on the pending reference application," in the event that: any such patent(s): granted on the pending reference applications: expires for failure to pay a maintenance fee, is held unenforceable, is found invalid by a court of competent jurisdiction, is statutorily disclaimed in whole or terminally disclaimed under 37 CFR 1.321, has all claims canceled by a reexamination certificate, is reissued, or is in any manner terminated prior to the expiration of its full statutory term as shortened by any terminal disclaimer filed prior to its grant.

The undersigned is an attorney or agent of record.

Respectfully submitted,

**SUBMISSION OF REPLACEMENT TERMINAL DISCLAIMER**

Submitted herewith is a copy of a replacement terminal disclaimer to be substituted for the terminal disclaimer that was filed on September 18, 2006, in conjunction with the response to the Office Action dated June 20, 2006.

This replacement terminal disclaimer is being submitted to correct the identification of the "target" patent application on which an obviousness-type double patenting rejection had been based. Specifically, claims of the present application had

been rejected over two co-pending applications based on obviousness-type double patenting:

co-pending Application Serial No. 10/957,899; and  
co-pending Application Serial No. 10/460,908.

The response filed on September 18, 2006 traversed the obviousness-type double patenting on the grounds that a terminal disclaimer was being filed over the both co-pending applications. However, the terminal disclaimer document which was filed erroneously listed only one of the these two target applications, specifically Application Serial No. 10/957,899.

The replacement terminal disclaimer submitted herewith corrects this error and lists both of the applications over which the obviousness-type double patenting rejection had been made.

By submission of this replacement terminal disclaimer, it is believed that no fee is due. See, MPEP §1490(V)(C). "A second terminal disclaimer fee should not be assessed/charged, [when a replacement terminal disclaimer is submitted] since the first fee is applied to the second terminal disclaimer."

However, in the event that a fee is due and not present, is not sufficient, or is not acceptable, please charge any fee for the processing of this replacement terminal
